18	1	2%	Termination of parental rights to older children							
19	54	96%	Families with 3 or more risk factors							

D. FY09 Exits									
	Number	Percentage							
1	23	35%	Families exited program						
2	8	35%	Exits with family goals met						
3	7	30%	Exits family goals partially met						
4	8	35%	Exits family goals not met						
5	21	35%	Times families moved/changed residences						
6	8	35%	Exits due to family moved out of service area						
E. FY09 Retention Rate									
	Number	Percentage							
1	20	35%	Average months, including prenatal, families participated prior to exit						
2	10	18%	Families exit before target child is 6 mo of age						
F. FY09 Health									
Pregnancy and Birth Information									
	Number	Percentage							
1	3	6%	Target children born at VLBW & LBW						
2	51	91%	Women received initial prenatal care 1st trimester						
3	1	2%	Women received no prenatal care						
4	54	96%	Women received ≥ 5 prenatal care exams/appointments						
5	43	77%	Families use family planning or a method of birth control						
G. Health Care Coverage (HCC) for Parents									
	Number	Percentage							
1	39	70%	Families parent(s) have health care coverage.						
H. Health Care Coverage (Insurance) for Target Children									
	Number	Percentage							
1	41	80%	Medicaid						
2	0	0%	Hawk-I						
3	0	0%	Medicare (SSI or other)						
4	8	16%	Private Insurance						
5	2	4%	No health care coverage as of June 30, 2009						
I. Health Care for Target Children									
	Number	Percentage							
1	51	100%	Medical Home: Established for target children and accessing						
2	51	100%	Target children with received ALL preventive health services <u>for age</u> according to the EPSDT s						
3	10	100%	(except Dental/Oral Health or Lead Screen)						
3	10	100%	Target children ≥ age 2 yr						
4	10	100%	Target children with immunizations according to recommended schedule by age 2						
5	0	0%	Target children with legitimate immunization exemption						
6	18	100%	Target children ≥ 12 months						
7	18	100%	Lead Poisoning: Number target children ≥ 12 mo. screened for Blood Lead Level (BLL)						

8	2	11%	Target children with an elevated BLL screen				
9	2	100%	Target children received or are receiving intervention for elevated BLL				
10	2	100%	Target children with BLL resolved to normal by end of FY07				
11	46	90%	Developmental Screening: Number of target children assessed for developmental				
11	46	90%	delay per age				
12	4	9%	Target children with suspected/potential development delay identified				
13	4	100%	Target children with suspected/potential development delay referred to Early ACCESS				
13	4	100%	identified				
14	4	100%	Target children with suspected/potential development delay who participated in Early				
14	4	100%	ACCESS following referral				
15	13	72%	Dental Home: Target children \geq 12mo accessed Dental provider or I-Smile services				
16							
16							
17	6	75%	Pregnant women who had \geq 1 dental exam/screening prenatal				
FY09 Social, Environmental, Emotional and Community							
J. Father (FOB) Target Child Involvement							
	Number	Percentage					
1	35	63%	Families, Father of the target child (FOB) involved				
2	8	14%	Families male involved in "fatherhood role" other than FOB				

K. Child Abuse/Neglect							
	Number	Percentage					
1	2	4%	Families on caseload with confirmed child abuse/neglect prior to FY09				
For TARGET CHILD							
	Number	Percentage					
3	1	2%	Confirmed abuse/neglect of <u>target child</u>				
4	0	0%	<u>Target children</u> placed in foster home				
5	1	2%	Confirmed abuses of <u>target child</u> following report by HOPES-HFI				
6	1	100%	Families continued HOPES-HFI participation following confirmed abuse of <u>target child</u>				
L. Child Care for Target Child							
	Number	Percentage					
1	5	10%	In non-registered home				
2	5	10%	In a registered home				
3	12	24%	With relative/friend				
4	0	0%	In a non-licensed childcare center				
5	1	2%	In a licensed childcare center				
6	0	0%	Accepted and accessed Child Care Resource & Referral				
7	4	8%	Received DHS child care assistance				
M. Pre-School for Target Child							
	Number	Percentage					
1	3	6%	Target children \geq age 3 yr				
2	3	100%	Target children age \geq 3 yr enrolled in a pre-school or Head Start				
N. Family Access of Community Services							
	Number	Percentage					
1	0	0%	Accessed domestic violence/abuse services				
2	3	2%	Accessed training and voc-ed services (disability, technical training)				
3	7	13%	Accessed employment services (workforce development, unemployment)				
4	1	2%	Accessed financial/budget assistance				
5	16	29%	Accessed housing support (rent assistance, heat assistance, HUD)				
6	9	16%	Accessed mental health services for parent				
7	0	0%	Accessed mental health services for target child				
8	2	4%	Accessed substance abuse treatment services				
9	5	9%	Accessed a public "closet" of infant/toddler supplies				
10	21	38%	Enrolled in family Investment Program (FIP)				
11	19	34%	Enrolled in Promise Jobs (PJ)				
12	8	14%	Accessed further education (GED, Comm. College, 2nd language)				
13	1	2%	Participated in parenting education class/group				
14	4	7%	Used public/other transportation (bus, taxi, volunteers)				
15	0	0%	Accessed a community resource center				
16	7	13%	Accessed a library for children's books				

17	1	2%	Accessed crisis child care					
18	0	2%	Total hours of crisis child care used by families					
O. Nutrition								
	Number	Percentage						
1	49	88%	Families enrolled in WIC					
2	12	21%	Mothers breastfeeding target child upon discharge from hospital					
3	3	25%	Mothers continued breastfeeding target child age \geq 6 mo					
4	37	66%	Families received DHS food assistance (food stamps)					
5	7	13%	Families enrolled in Food and Nutrition Program (FNP)					
6	6	11%	Families accessed food pantries/commodity foods					

P. Family Problem Assessment & Progress						
Problem identified is from initial assessment during first few home visits, <u>measure only for families with a target</u>						
child who is age \geq 6 mo.						
	Number	Percentage				
1	34	61%	Families with age of target child age \geq 6 mo.			
	# Families Problem Identified	Problem Identified	# Resolved	# Improved	# Not Improved	
	16	Living Situation	6	5	5	
	2	Social Isolation	0	2	0	
	9	Transportation	1	5	3	
	4	Home Safety	0	4	0	
	24	Financial Situation	0	15	9	
	16	HOH Employment	4	6	6	
	2	Access to Health Care	1	0	1	
	0	Substance Abuse	0	0	0	
	12	Education	3	2	7	
	7	MH/Emotional Status	0	6	1	
	0	Domestic Violence	0	0	0	
	20	Parenting Skills/Discipline	4	14	2	
	2	Personal Hygiene	0	0	2	
	29	Age Appropriate Activities	3	23	3	
	11	Appropriate Child Care	5	5	1	
	24	Care of Infant	12	10	2	
	30	Child Growth & Development	5	23	2	
	10	Parent-Child Interaction	4	5	1	
Q. HOPES-HFI Services						
	Number	Percentage				
1	774	XXXX	Home visits to provide HOPES-HFI services by FSW/PM/ Supervisor			
2	3	0%	Joint home visits with FSW by PM/Supervisor			
3	65	8%	Attempted or not home, not found (NHNF) visits by HOPES-HFI staff			
4	0	XXXX	Units of direct transportation provided (1 round trip or 1 way trip = 1 unit)			
R. Edinburgh Postnatal Depression Screen						
1	53	XXXX	Number of Clients screened (Pre and Postnatal) Unduplicated			
2	90	XXXX	Total number of EPDS done			
XXXX	XXXX	1.70	Avg # of EPDS per client (do not need to enter #)			
3	23	26%	Number of screens positive for possible depression			
4	23	100%	Number of referrals made			
a.	22	96%	To Physician/PCP			
b.	1	4%	To MH provider			

c.	0	0%	To other							
5	16	70%	Number of clients who accessed a provider following referral							
6	13	81%	Number of clients who received intervention/trmt after accessed provider							
7	6	26%	Number of clients with positive screen already under the care of a provider or receiving							
X	X	X	treatment for depression
